

INVITATION

Victorian Coastal Council

VCC Seminar A new approach to coastal management & planning: Coastal Compartments

The Victorian Coastal Council (VCC) invite you to an interesting and informative seminar where Professor Bruce Thom AM (University of Sydney) will present on the Coastal Sediment Compartment Project. The Project aims to improve coastal risk assessments undertaken at national and regional levels and better integrate approaches to the management of the coastal zone.

Following his presentation, Professor Thom will be joined by an expert panel to further discuss the concept of coastal compartments. There will also be the opportunity for coastal stakeholders to ask questions of the panel.

Panel members:

- Chris Smyth (Victorian National Parks Association)
- David Provis (Cardno)
- Elizabeth Patterson (Dept. Environment, Land, Water & Planning)

The Seminar will conclude with the opportunity to network over light refreshments.

Date / Time: **Thursday 26 February 2015**
4:45pm—6.30pm including light refreshments

Location: **Marland House**
Level 16, Room 2
570 Bourke Street
